Technology Policy & Advocacy Leader – Artificial Intelligence, Quantum, and Advanced Computing

Professional Summary

Ph.D. computer scientist, CISSP, and IEEE Senior Member with 10+ years advancing artificial intelligence, quantum, and advanced-computing research, education, and public communication. Published thought leader (ISACA Journal author, 14+ peer-reviewed papers, 3 books) who translates complex emerging-technology and privacy topics for technical and non-technical audiences, convenes conferences and training programs, builds cross-institution coalitions, and co-authored a \$500k federal grant proposal as Co-PI.

Technical Skills

- **Emerging Technology:** Artificial Intelligence, Adversarial Machine Learning, Quantum Cryptography, Robotics, Privacy-Preserving ML, Fully Homomorphic Encryption
- **Policy & Governance:** Responsible AI, NIST frameworks, ISO 27001, data privacy, risk-based assessment, regulatory awareness
- **Communication:** Speeches and invited talks, technical and journal writing, blog and op-ed authorship, briefings for senior stakeholders
- **Leadership:** Coalition and stakeholder engagement, conference and program organization, mentoring, cross-functional collaboration

Professional Experience

Bowie State University

Lecturer and Researcher

2024 - Present

Maryland, USA

- Lead policy-relevant research and curriculum on artificial intelligence, privacy-preserving computation, and emerging-technology risk.
- Organized an AI Conference, Cyber Day, cybersecurity training, and a CTF competition, building coalitions across academia, industry, and government partners.
- Co-authored a \$500k grant proposal as Co-Principal Investigator and guided federally funded (SFS, SURI) scholars on threat-assessment projects.

Telecom SudParis

Visiting Researcher

2024

France

- Collaborated with international partners on fairness, security, and privacy in collaborative machine learning, informing responsible-AI practice.

Stevens Institute of Technology

Graduate Research and Teaching Assistant

2020 - 2024

New Jersey, USA

- Designed and taught graduate, undergraduate, and pre-college courses on cryptography, AI, and security, communicating advanced computing to broad audiences.

Oracle / Philips

Senior Engineer (Applications and Software)

2015 - 2019

India

- Delivered enterprise software and integrations and led teams of four on global best-practice initiatives, aligning technical work with business priorities across functions.

Education \& Certifications

- **Ph.D., Computer Science** — Stevens Institute of Technology, Hoboken, NJ (2024). GPA 3.59/4.0
- **M.Tech., Computer Science** — Nirma Institute of Technology, India (2016). GPA 8.21/10
- **B.E., Computer Science** — Gandhinagar Institute of Technology, India (2013). GPA 7.52/10
- **Certifications:** (ISC)² CISSP and CC; Microsoft Azure AZ-900 and AI-900; IBM Watson Analytics

Selected Accomplishments

- Authored “The Future of Cryptography” in the **ISACA Journal**; delivered invited talks at George Washington University and Texas A&M University.
- Published 14+ peer-reviewed papers and 3 books on AI, cryptography, and cybersecurity; IEEE Senior Member and (ISC)² member.
- First Prize, **Red Team CTF 2022** (Trend Micro and ISACA NY Metro); Provost’s Ph.D. Fellowship and multiple research grants; peer reviewer for IEEE, MDPI, Wiley, and ACM.
