Cybersecurity Incident Response and Crisis Management Leader

Professional Summary

CISSP-certified security leader, Ph.D., and IEEE Senior Member with 10+ years across incident response, threat research, and security program development. Builds programs from the ground up, leads cross-functional and geographically distributed teams, and applies NIST, MITRE ATT&CK, and SANS practices to detect, escalate, and manage disruptions. Communicates with calm, confident leadership to senior stakeholders and mentors responders across multiple security domains.

Technical Skills

- Incident Response & Frameworks:** NIST SP 800-61, MITRE ATT&CK, SANS incident handling, ISO 27001, NIST 800-53/171, risk assessment, root-cause and post-incident review
- Detection & Response:** SIEM (Splunk, ELK, Azure Sentinel), EDR, IDS/IPS, anomaly detection, log analysis, threat intelligence, digital forensics concepts
- Program Leadership:** Program build-out, tabletop and CTF exercises, cross-functional coordination, mentoring, stakeholder and executive communication
- Risk & Security Engineering:** Vulnerability management, penetration testing, red teaming, secure architecture, cloud (AWS, Azure), Python and SQL automation

Professional Experience

Bowie State University

Lecturer and Security Researcher

2024 - Present

Maryland, USA

- Built security programs from inception, organizing Cyber Day, cybersecurity training, an AI conference, and CTF competitions across stakeholders.
- Recruited, mentored, and led student responder teams to multiple national CTF placements; taught Ethical Hacking and operating-systems security.
- Co-authored a \$500k grant proposal as Co-PI and aligned curriculum to ABET and CAE standards through structured assessment and metrics.

Stevens Institute of Technology

Graduate Research and Teaching Assistant

2020 - 2024

New Jersey, USA

- Researched incident detection and security analytics: built SIEM queries, anomaly-detection models, and log-monitoring pipelines for continuous monitoring.
- Ran red-team and penetration-testing exercises against simulated enterprise environments, mapping findings to MITRE ATT&CK and remediation playbooks.

Telecom SudParis

Visiting Researcher

2024

France

- Coordinated with international teams on secure collaborative systems, assessing risk across heterogeneous, distributed research infrastructure.

Oracle / Philips

Senior Engineer (Applications and Software)

2015 - 2019

India

- Led cross-functional teams of four, coordinated response to production issues under pressure, and drove corrective actions in regulated environments.

Education \& Certifications

- Ph.D., Computer Science** — Stevens Institute of Technology, Hoboken, NJ (2024). GPA 3.59/4.0
- M.Tech., Computer Science** — Nirma Institute of Technology, India (2016). GPA 8.21/10
- B.E., Computer Science** — Gandhinagar Institute of Technology, India (2013). GPA 7.52/10
- Certifications:** (ISC)² CISSP and CC; Microsoft Azure AZ-900 and AI-900; IBM Watson Analytics

Selected Accomplishments

- CISSP** and (ISC)² CC certified; IEEE Senior Member; Microsoft Azure AZ-900 and AI-900.
- First Prize, **Red Team CTF 2022** (Trend Micro and ISACA NY Metro); mentored student teams to 2nd and 3rd place at multiple regional CTFs.
- Published 14+ peer-reviewed papers and 3 books on cybersecurity, including supervised log-anomaly detection and security analytics.
- Co-authored research on local-government supply-chain cybersecurity and resilience in resource-limited organizations.
