Policy Researcher – Artificial Intelligence Governance, Risk, and Security

Professional Summary

Ph.D. computer scientist, CISSP, and IEEE Senior Member specializing in artificial intelligence, machine-learning security, and privacy. Published researcher and clear writer (ISACA Journal author, 14+ peer-reviewed papers, 3 books) who translates complex AI capabilities and risks into accessible analysis. Conducts policy-relevant research, including local-government cybersecurity resilience, and applies NIST and Responsible AI frameworks. Mission-aligned with improving the long-term trajectory and safety of advanced AI.

Technical Skills

- **AI & Risk:** Artificial Intelligence, Adversarial Machine Learning, Privacy-Preserving and Federated ML, AI security and governance, model and systemic risk analysis
- **Research & Writing:** Policy-relevant research, peer-reviewed publications and books, literature synthesis, technical and journal authorship, memo and report writing
- **Policy & Frameworks:** NIST 800-53/171, ISO 27001, Responsible AI, data privacy, regulatory and compliance analysis, government cybersecurity research
- **Communication:** Invited talks and briefings, teaching and training, cross-institution and international collaboration, mentoring

Professional Experience

Bowie State University

Lecturer and Researcher

2024 - Present

Maryland, USA

- Conduct and publish research on artificial intelligence, privacy-preserving computation, and emerging-technology risk, and translate findings for broad audiences.
- Co-authored research on local-government supply-chain cybersecurity, addressing the implementation gap in resource-limited municipalities (recognized with a poster award).
- Co-authored a \$500k federal grant proposal as Co-Principal Investigator and mentored federally funded (SFS, SURI) scholars on threat-assessment and privacy projects.

Stevens Institute of Technology

Graduate Researcher

2020 - 2024

New Jersey, USA

- Researched adversarial and privacy-preserving machine learning, authoring peer-reviewed papers and an ISACA Journal article, and synthesizing technical literature for broad audiences.

Telecom SudParis

Visiting Researcher

2024

France

- Collaborated internationally on fairness, security, and privacy in collaborative machine learning, informing responsible-AI practice.

Oracle / Philips

Senior Engineer (Applications and Software)

2015 - 2019

India

- Delivered enterprise software and led teams of four, translating technical work into business priorities in regulated environments.

Education \& Certifications

- **Ph.D., Computer Science** — Stevens Institute of Technology, Hoboken, NJ (2024). GPA 3.59/4.0
- **M.Tech., Computer Science** — Nirma Institute of Technology, India (2016). GPA 8.21/10
- **B.E., Computer Science** — Gandhinagar Institute of Technology, India (2013). GPA 7.52/10
- **Certifications:** (ISC)² CISSP and CC; Microsoft Azure AZ-900 and AI-900; IBM Watson Analytics

Selected Accomplishments

- Authored “The Future of Cryptography” in the **ISACA Journal**; published 14+ peer-reviewed papers and 3 books on AI, cryptography, and cybersecurity.
- Co-authored **local-government supply-chain cybersecurity** research (policy and resilience focused); invited talks at George Washington University and Texas A&M.
- CISSP and (ISC)² CC certified; IEEE Senior Member; peer reviewer for IEEE, MDPI, Wiley, and ACM; Provost’s Ph.D. Fellowship.
