Vulnerability Management and Offensive Security Engineer

Professional Summary

CISSP-certified security engineer and Ph.D. with hands-on vulnerability assessment, penetration testing, and security automation experience across cloud and on-premises systems. Runs scanning and risk-based prioritization, builds Python and SQL automation for security workflows, researches emerging threats, and communicates remediation metrics clearly to technical and non-technical stakeholders.

Technical Skills

- **Vulnerability Management:** Vulnerability scanning, risk profiling and prioritization, penetration testing, remediation coordination, OWASP Top 10, CVSS-based triage
- **Tools:** Nessus, Nexpose, Nmap, Metasploit, Burp Suite, Wireshark, Kali Linux; SIEM (Splunk, ELK, Azure Sentinel)
- **Automation & Scripting:** Python, Bash, SQL, REST APIs; CI/CD (Jenkins, GitLab); data aggregation and security-workflow automation
- **Systems & Cloud:** TCP/IP, DNS, SSL/TLS, network protocols; Linux, Windows; AWS and Microsoft Azure (AZ-900, AI-900)
- **Threat & Frameworks:** Threat intelligence, MITRE ATT&CK, NIST, anomaly detection, metrics and reporting

Professional Experience

Bowie State University

Lecturer and Security Researcher

2024 - Present

Maryland, USA

- Teach Ethical Hacking and operating-systems security, leading hands-on vulnerability scanning, exploitation, and remediation labs.
- Mentor student teams to national CTF placements; research emerging attack vectors and mitigation strategies.

Stevens Institute of Technology

Graduate Research and Teaching Assistant

2020 - 2024

New Jersey, USA

- Performed vulnerability scanning and penetration testing across distributed cloud and Unix systems, prioritizing and remediating findings.
- Built Python and SIEM-based automation for log analysis, anomaly detection, and indicator enrichment to streamline assessment workflows.

Oracle

Senior Applications Engineer

2018 - 2019

India

- Tested and debugged C++, SQL, and REST API integrations, validating identity and access controls across enterprise backend services.

Philips

Senior Software Engineer

2015 - 2018

India

- Created an automation toolchain that reduced manual test effort by over 50% and managed secure version control for 300 GB binary assets per release.

Education \& Certifications

- **Ph.D., Computer Science** — Stevens Institute of Technology, Hoboken, NJ (2024). GPA 3.59/4.0
- **M.Tech., Computer Science** — Nirma Institute of Technology, India (2016). GPA 8.21/10
- **B.E., Computer Science** — Gandhinagar Institute of Technology, India (2013). GPA 7.52/10
- **Certifications:** (ISC)² CISSP and CC; Microsoft Azure AZ-900 and AI-900; IBM Watson Analytics

Selected Accomplishments

- **CISSP** and (ISC)² CC certified; Microsoft Azure AZ-900 and AI-900; IEEE Senior Member.
- First Prize, **Red Team CTF 2022** (Trend Micro and ISACA NY Metro); mentored teams to multiple regional CTF placements.
- Released open-source security software (Chiku, VaultBox) and published 14+ peer-reviewed papers on security analytics and anomaly detection.
